SUMMARY

Software Engineer with 2.5+ years of hands-on experience designing, developing, and maintaining production-grade web applications in large corporate environments at Bain & Company and Deloitte USI. Delivered features across enterprise applications in financial services, pharmaceutical, and sports/media domains using React, TypeScript, JavaScript, and Redux. Strong foundation in system design, application resiliency, secure coding practices, CI/CD, and Agile methodologies. LeetCode Knight (1755).

EXPERIENCE

Bain & Company

Oct 2025 – Present

Software Engineer (Associate)

Gurgaon, India

- Developed scalable, high-quality production code for Bain's internal analytics platforms using **React, TypeScript, JavaScript, Ag-Grid, and Redux**, serving consulting teams across multiple geographies.
- Engineered optimized client-side state management with Redux and React Query, reducing redundant API calls and improving responsiveness on data-heavy dashboards.
- Mentored interns, led **code reviews**, and contributed to team coding standards that improved code quality and lowered production defects across releases.
- Collaborated with product managers and business stakeholders in an **Agile** environment to translate complex requirements into secure, scalable UI components for high-stakes client deliverables.

Deloitte USI

Sep 2023 – Oct 2025

Software Engineer (Analyst)

Gurgaon, India

- Designed, developed, and maintained code across **four large-scale enterprise applications** in financial services, pharmaceutical, and sports/media domains in a large corporate environment, using **React, TypeScript, Redux, MUI, and Tailwind CSS**.
- Optimized application load time by ~30% through render optimization, code splitting, and memoization, improving operational stability of data-heavy pages.
- Reduced API latency by ~30% through request batching, caching strategies, and secure REST API integration, contributing to a measurable lift in user engagement.
- Debugged and resolved 100+ UI defects, raised Jest test coverage by 40% (including unit and integration tests), and brought applications to **WCAG 2.1 AA** accessibility compliance.
- Worked within **CI/CD** pipelines and Agile ceremonies, collaborating with backend, QA, and design teams to deliver reliable, production-ready releases.

PROJECTS

PropertyPulse | *Next.js, Node.js, MongoDB, NextAuth, Mapbox, Cloudinary, Vercel*

[GitHub](#) | [Live](#)

- Designed and built a full-stack rental property platform with **Next.js App Router**, server-side rendering, Node.js APIs, and MongoDB, supporting secure authentication, search, and user profiles.
- Integrated Mapbox for geolocation and Cloudinary for optimized image delivery; deployed on Vercel with CI/CD for automated builds and releases.
- Implemented real-time messaging, notifications, and property bookmarking with responsive, accessible UI built in Tailwind CSS.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, C++, HTML5, CSS3, SQL

Frameworks & Libraries: React.js, Next.js, Redux, Redux Toolkit, React Query, Zustand, Node.js, Express.js

Styling & UI: Tailwind CSS, MUI (Material UI), ShadCN, SASS, Responsive Design, Cross-browser Compatibility

Databases: MongoDB, SQL, NoSQL

Testing: Jest, React Testing Library, Cypress, Unit Testing, Integration Testing

Cloud & Tools: Vercel, Firebase, Git, GitHub, Bitbucket, Jira, Figma, Webpack, Vite, CI/CD, REST APIs

Concepts: System Design, Application Resiliency, Secure Coding, Performance Optimization, Web Accessibility (WCAG 2.1), Agile, SDLC, Code Reviews

EDUCATION

Malaviya National Institute of Technology (MNIT), Jaipur

Jul 2019 – May 2023

Bachelor of Technology in Civil Engineering

- Self-directed coursework in Data Structures, Algorithms, Operating Systems, DBMS, and OOP; transitioned to software engineering during undergrad through coding contests and personal projects.

ACHIEVEMENTS

LeetCode: Max rating **1755** (Knight); ranked **1192 / 20,000** in Biweekly Contest 87.

Applause Award, Deloitte USI — recognition for team contribution and delivery on high-impact client engagement.
